

110 field cuttable RTD

Overview

Designed for applications where a threaded male fitting is required for mounting in tanks, stacks and pressure vessels.

Stocking 'cuttables' can reduce inventory

Less downtime, as the 110 can be easily cut to the required length in the field and the fitting installed in a matter of minutes.

Model 110 is designed to be used with optional connector or spring-loaded fitting.

Technical specification

Feature	Description
Element type	Standard platinum, 100 ohms @ 0C (32F), .00385, TCR, with optional Pt1000 and TCRs available
Accuracy	Standard DIN-B, with DIN-A and others available upon request
Construction	Standard 500°F service temperature, with a 900°F option available
Lead wire configuration	Standard 4 Wire, with optional 6 or 8 wire
Sensor sheath diameter	Standard 1/4" diameter, with options of 1/8", 3/16", and others available
Sheath length	Standard 24", custom sizes available
Lead wire length	Standard 6", custom length available
Lead wire protection	Optional stainless steel overbraid, stainless steel armor
Connections	Optional standard and miniature sizes, standard and high temperature ratings
Fittings	Optional compression and spring loaded fittings with various NPT connections
Tube cutter	Ultra Energy tube cutter
Insulation resistance	Greater than 100 Megohms @ 100VDC @ 21C (70F)

About Curtiss-Wright

Curtiss-Wright Round Rock and Wimborne have worked with nuclear and industrial customers for over 60 years. We support customers across the world from facilities located in the US and UK. Our solutions are embedded in strategic national infrastructure and our people are active partners in customer programs that are focused on delivering advanced future nuclear and industrial capabilities.

Curtiss-Wright Corporation (NYSE: CW) is a global integrated business that provides highly engineered products, solutions and services mainly to Aerospace & Defense markets, as well as critical technologies in demanding commercial power, process and industrial markets. We leverage a workforce of approximately 8,600 highly skilled employees who develop, design and build what we believe are the best engineered solutions to the markets we serve. Building on the heritage of Glenn Curtiss and the Wright brothers, Curtiss-Wright has a long tradition of providing innovative solutions through trusted customer relationships.
