

# 1XXY base metal bare element thermocouple

## Overview

This base metal bare element thermocouple has a bare strip termination. Twisted and welded junction as standard, with butt welded optional. Available in types K, N, J and 8, 14, 20 gauge as standard. Other types and gauges available upon request.

# Technical specification

Feature	Description
Model number	1-Gauge-Type, ie 108K
Wire gauge	8, 14, a 20 gauge are standard, with others available upon request
Junction	Twisted and welded is standard, with butt welded also available
ANSI calibration	K, J and N
Accuracy	Standard Limits of error, ie K, N and J special Limits of error KSL, NSL and JSL
Number of circuits	1
Termination	Bare strip 2"
Accessory	Single and dual terminal block

## About Curtiss-Wright

Curtiss-Wright Round Rock and Wimborne have worked with nuclear and industrial customers for over 60 years. We support customers across the world from facilities located in the US and UK. Our solutions are embedded in strategic national infrastructure and our people are active partners in customer programs that are focused on delivering advanced future nuclear and industrial capabilities.

Curtiss-Wright Corporation (NYSE: CW) is a global integrated business that provides highly engineered products, solutions and services mainly to Aerospace & Defense markets, as well as critical technologies in demanding commercial power, process and industrial markets. We leverage a workforce of approximately 8,600 highly skilled employees who develop, design and build what we believe are the best engineered solutions to the markets we serve. Building on the heritage of Glenn Curtiss and the Wright brothers, Curtiss-Wright has a long tradition of providing innovative solutions through trusted customer relationships.
